NYX

Marie Nyx has an unmatched ability to adapt to the wants and needs of any dance floor without sacrificing her infectious, apparitional style. Drawing inspiration from powerhouse disc jockeys like Objekt and Avalon Emerson, Marie pieces together music of all genres with instinctual precision, creating auditory atmospheres that illustrate her environment as it exists in the present moment. From the warehouse to the desert to the nightclub, this true DJ will dazzle any and all who are lucky enough to be on the receiving end of her encyclopedic track selections, and soon dancers will receive her own equally eclectic productions as well.

The Los Angeles underground dance music community is filled to the brim with talent and every corner is a community that wants to see Marie Nyx rise to the top. Marie Nyx has not only made a name for herself but she has used her platform to help other women reach their goals as well. Marie Nyx is a true inspiration and a role model for many. This series is dedicated to highlighting the people in Los Angeles who are making a difference in their communities. Everyone has a role to play in this community.
